# WAB Community Market

Spread the holiday cheer & the joy of giving!

Supporting several non-profit organizations
Together we can make a difference

Dear WAB Community,

The holiday season is here again! To help celebrate all the fun and joy this season brings, Charity Link is proud to present you our first ever Holiday E-Catalog.

Every year, Charity Link organizes several events to support various local non-profit organizations. The annual Community Market is the most anticipated of our events. Unfortunately, this year's market has been cancelled due to the COVID epidemic measures in Beijing. Historically, this had been the event where we raised the most funds for the organizations and causes we support. Although we are not able to meet in person for our annual Community Market, we would truly like to continue the spirit of spreading holiday cheer and the joy of giving with the Holiday E-Catalog.

This catalog features a collection of products from vendors and non-profit organizations who originally signed up for our Community Market. Here, you can view a variety of holiday merchandise and gifts and support our participating vendors and non profit organisations. Majority of the vendors are local which means shipments will arrive faster! Don't miss this chance to check off your holiday shopping list while also supporting a good cause.

Charity Link will continue to use funds raised towards projects for children's health and education. Please also extend your support to our Student Service Clubs' donation campaign! So, what are you waiting for? Start shopping today and share this catalog with all of your friends. There is something for everyone! Join us in spreading holiday cheer and the joy of giving!

Together, we will make a difference this season!

WOVEN TALES has been founded by Annika, Ahmad and Siavosh Zabeti in 2012. Dedicated to the discovery and creation of unique handmade Persian carpets, it was voted "Best carpet brand" by ELLE Decoration magazine in 2016.

Ahmad's relationship to carpets has deep emotional roots: He is from the third generation of a family of carpet dealers. His grandfather started exporting the first unique pieces outside Iran's borders in 1938. When he was just a young boy, Ahmad and his father used to visit carpet weavers in Iran. His passion was born and he then never stopped working on enhancing this heritage.

Siavosh (creative director at Apple Inc. San Francisco since 2014) and Annika (textile designer) have taken over the artistic direction of the contemporary collection of WOVEN TALES, combining a pure modern style with ancestral Iranian know-how.

Interior design enthusiats, Annika and Ahmad study the taste and expectations of their customers in order to accompany them in their choice and create an atmosphere with an unique touch in their home.

LIUBA DRAWS BEJULIUG

Hard cover, 180 pages Size: 280\*210 mm Weight 700 g

"Liuba Draws Beijing" reveals glimpses of Beijing you don't see described in the classic travel guides. This illustrated memoir from Liuba, a foreign illustrator, is a collection of informative and humorous anecdotes representing the artist's personal perspective on life in China's capital. Experience the Asian metropolis through full-page watercolor paintings with delightful scenes of the old maze-like streets contrasting with the modern city skyline, early bird street food vendors servicing commuters, a winter snowfall panorama of the Forbidden City and the Great Wall under the star filled skies. Witty comments and detailed watercolor illustrated stories take the reader on a journey with the author who questions if there really is a tofu lake and wonders if there could be a villain's lair located on the top floor of a Beijing skyscraper?

Millet has a big mission

In order to protect the oasis, Renxiaomi came into being.

Renxiaomi guided farmers in Alxa to use drip irrigation technology to grow millet, and gave public welfare subsidies to ensure farmers' income. Since 2009, continuous efforts have led 80 percent of farmers in Alxa Barun Bieli Town to use drip irrigation technology. According to the local government statistics, the area has achieved the balance of groundwater extraction and replenishment for more than three consecutive years.

### How to make a unique piece of jewelry

During its more than two thousand years of development, Chinese porcelain has presented different glaze colors and patterns, each style reflecting the aesthetics, good wishes and technology of the people of the time. Porcelain is exquisite and hard, but due to its fragile nature, we as descendants acquire more broken porcelain pieces.

### How to make these fragments full of ancient wisdom reborn?

Silver inlay not only has a decorative effect, but also can well protect the broken porcelain pieces. Through the combination with silver, each piece of porcelain becomes a unique treasure.

#### **Experience activities:**

The event will be held in our studio "Qiankun Space", which is located in an old hutong "Yangmeizhu Xiejie" in Qianmen area. We have decorated the interior and exterior of our studio with old porcelain pieces. We will show you around before starting the workshop. You will have the opportunity to see various jewelry and decorative items made from ancient ceramic pieces.

- 1. In about 60 minutes, we will present a brief history of Chinese ceramics, ornaments and their symbolism, and provide participants with background knowledge about official kiln ceramics. During the explanations, the participants can touch, know and appreciate the precious antique pieces from different periods from Song to Qing Dynasty.
- 2. Afterwards a 60 minutes workshop will teach you how to inlay and polish silver jewelry. With the assistance of the teacher, all participants can make their own piece of jewelry from 925 silver with antique ceramic shards.

### 第三步: 使用电动抛光工具打磨银托

**Step 3:** Polish silver brackets with electric polishing tools

#### **第四步**: 将抛光好的饰品放入超声波设备中清洗

**Step 4:** Put the polished jewelry into the ultrasonic equipment for cleaning

# REMEMBER for Those Who Cannot

At Acts for Alzheimer's, we visit and raise money for Alzheimer's patients at PangGeZhuang Welfare Center

If you make the world better for kids, you make it better for everyone

Help the kids go to school, providing the opportunity for them to...

# LIGHT-UP!

Our club 'Light-up!' strives to help orphans and kids with disabilities from ages 5-13 with their learning. We work with the organization 'Renyuyuan,' and from this donation, we aim to reach 8600RMB to finance XIaoyu's elementary school tuition.
